Ultra Pro Panel

EXPOSED-FASTENER PANEL SYSTEM

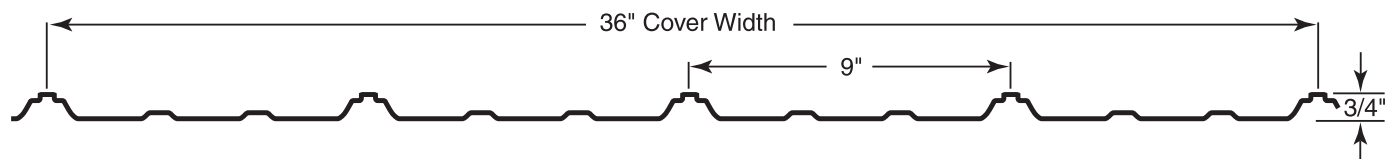

Warranty Included
with Purchase

Platinum Metals | Ultra Pro Panel is 38" wide and provides 36" of coverage. The major ribs are 9" apart and approximately $\frac{3}{4}$ " high with two minor ribs in between that are a full $\frac{3}{16}$ " high. A stiffener is added to all the major ribs which, along with the superior thickness of the steel, makes this panel extremely strong. This not only adds considerable durability to your building, but also prevents rippling during the construction process.
